INSTRUCTIONS for Use of ACS MPS ULTRA solution for Soft Contact Lenses

Intended use:

ACS MPS ULTRA solution rinses, lubricates, disinfects, cleans, removes protein, soaks and stores soft contact lens.

Composition:

ACS MPS ULTRA solution is a sterile, isotonic aqueous solution containing sodium chloride, potassium chloride, boric acid, disodium hydrogen phosphate, edetate disodium (0.05%), poloxamer, HPMC, propylene glycol, PHMB (0.00018%) and sodium hyaluronate.

Usage:

1. Wash your hands and dry them with a clean towel prior to handle your lenses.
2. Rinse each side of the contact lens for 5 seconds to remove the remnants on the surface of contact lens.
3. Apply 3 - 4 drops of solution to each side of the lens and gently rub with your finger for about 10 seconds.
4. Soak the contact lens in the lens case filled with fresh solution for at least 6 hours.
5. Discard solution from lens case and rinse it with solution, naturally dried to reserve.
6. After using replace the cap and screw tight. Repeat the procedure with the other eye's lens.
7. If the lenses are not used for a long period, freshen your solution every 7 days.

Precautions:

1. Do not use if the sealing of bottle is damaged or the solution leaks.
2. Close the bottle after each use.
3. Never touch the dropper tip to any surface to prevent contaminating the solution.
4. Store out of direct sunlight.
5. Never mix use with similar products.
6. In case of Any problem, consult your eye care professional.
7. The period of validity of unopened solution is 3 years.
8. Once the bottle is open, discard any remaining solution after 3 months.
9. Store at the room temperature 15°C - 25°C and keep out of the reach of children.
10. Follow your eye care professional's direction or usage listed above. Dealing with contact lens inappropriately will cause serious eye damage and disease.

Contraindication:

If you are allergic to the ingredients in this product, please do not use. Patients with eye diseases such as conjunctivitis, keratitis, eye damage, and other systemic diseases that can't wear contact lenses. There are contraindications for contact lenses wear.

Adverse Reactions and Side Effect:
