

ACS COMFORT PLUS EYE DROPS

ACS Comfort Plus Eye Drops is a sterile, clear, colourless, dual-action lubricating solution that is formulated to be similar to your normal tears. It soothes and gives comfort to the eyes.

It is intended for the following uses:

- For the temporary relief of burning, irritation, and discomfort due to eye dryness.
- For relief from irritation caused by exposure to environmental factors such as wind, dust, or sun.
- As a protectant against further irritation.
- To relieve dryness and keep eyes moist, especially while sleeping.

ACS Comfort Plus Eye Drops are contact lens friendly and can be used to increase lens wearing comfort. They are suitable for daily wear, frequent replacement, and disposable contact lenses.

OTHER MEDICINES AND ACS COMFORT PLUS EYE DROPS

Some medicines taken by mouth can reduce the body's natural tear production, leading to symptoms of dry, irritated, or gritty eyes. ACS Comfort Plus Eye Drops can be used alongside these medications to help relieve these symptoms.

Examples of medications that may cause dry eyes include:

- Antihistamines (used for allergies)
- Beta-blockers (used for high blood pressure and heart conditions)
- Hormone therapies (such as birth control pills or hormone replacement therapy)
- Diuretics ("water pills")
- Decongestants
- Certain antidepressants and anti-anxiety medications
- Some acne treatments (e.g., isotretinoin)

Using ACS Comfort Plus Eye Drops does not interfere with these medications but provides symptomatic relief for the eyes. If you believe your medication is causing severe dry eyes, speak to your doctor or pharmacist. Do not stop taking any prescribed medication without first consulting your doctor.

COMPOSITION:

Hypromellose 0.3% w/v, Sodium Hyaluronate 0.1% w/v, Polyhexamethylene Biguanide 0.0001% w/v (as preservative).

In an isotonic buffered solution

DIRECTIONS FOR USE:

- Instill one or two drops into each eye when required or use as directed by your eye-care practitioner.
- Blink several times.
- Replace the cap tightly after use.

CONTRA INDICATIONS:

- Do not use if you are allergic to any of the ingredients.
- If you experience any eye discomfort, irritation, pain, redness or blurred vision consult your eye-care practitioner immediately.

PRECAUTIONS:

- Do not use if tamper evident ring is broken before first use.
- Store between 5°C to 30°C.
- Keep away from sunlight.
- Do not resterilise.
- Do not touch the nozzle tip to any surface since this may contaminate the solution.
- Do not use after the expiry date.
- Use the solution within 30 days after opening the bottle.
- Discard the anti-tamper ring from the bottle to avoid falling off when applying drops.
- Do not use if package is damaged.

KEEP OUT OF REACH OF CHILDREN FOR EXTERNAL USE ONLY

WASTE DISPOSAL:

- Pour unused Eye drops down a drain.
- Dispose of empty bottle in accordance with local waste disposal regulations.
