

# NATURAL RELIEF FOR RED, IRRITATED EYES

ACS Brightening Eye Drops naturally soothes red, itchy, or irritated eyes leaving them looking clear and feeling fresh.

ACS Natural Brightening Eye Drops soothes, refreshes and relieves minor eye irritation by lubricating moisturising and protecting the ocular surface. Eyebright, or Euphrasia, has been used for centuries in treating eyes. The ingredients of this widespread plant help with reddened and inflamed eyes along with Chamomile's anti-inflammatory properties which provide relief for tired or dry eyes. Available without prescription and suitable for all eyes including contact lens wearers.
