

ACS Comfort Plus Vitamin A & E Eye drops

ACS Comfort Plus Vitamin A & E Eye drops

provide fast relief to dry and irritated eyes. Our Vitamin A & E Eye Drops contain sodium hyaluronate a natural substance found in the eye. Sodium hyaluronate forms a protective layer, trapping in the moisture to prevent the eye from drying out. The addition of vitamins A & E supports the eye's natural protective action. Vitamin A is used by cells in the eye that produce part of the tear film - the tear film helps to protect the eye from drying out. Vitamin E is a natural antioxidant that helps reduce the damaging effects of free radicals. Free radicals are reactive and unstable particles that cause damage to cells by altering the structure of the molecules they come into contact with.

What this product is used for

ACS Comfort Plus Vitamin A & E Eye drops have a moisturising activity and are for lubricating and relieving the discomfort of dry and irritated eyes caused by computer use, central heating, air conditioning or whilst traveling. For day and night use.

DIRECTIONS:

Apply 1 to 2 drops per eye, 3 to 6 times a day or as specified by your optician.

IMPORTANT:

For use as an eye drop only, do not swallow. Do not let the tip of the dropper come into contact with the eye.

Do not use if you are allergic to any of the ingredients. In case of adverse reactions, stop using the product immediately and consult your optician.

Do not use the product after expiration date, see base of carton.

Discard the product 90 days after first opening.

Do not use with other eye preparations.

Discard the anti-tamper ring from the bottle to avoid falling off when applying the drops or Discard the ratchet of the cap on opening.
