

ACS **BABY** ReLax

CE 0425
MEDICAL DEVICE

ACS ReLax can be used for infants and micro-enema is a medical device for rectal use, formulated in micro-enema based on polyethylene glycol (Macrogol 4000) to facilitate evacuation in case of constipation. Macrogol 4000 is an inert polymer able to exert a laxative action thanks to its osmotic mechanism that, recalling water in the stool, helps to soften the fecal mass and, at the same time, to promote evacuation, without irritating the mucosa.

ACS ReLax micro enema is suitable for the treatment of constipation even in the presence of irritable colon and hemorrhoids.

Category - Medical device for rectal use.

Packaging - The sales package contains 4 micro-enema of 6 g.

Composition - Polyethylene glycol (Macrogol), benzyl alcohol, dehydroacetic acid.

Recommended dose - 1 micro-enema when needed or according to doctor's opinion.

Instructions for use:

- Open the micro-enema by removing the cannula cover, bending it to the base;
- Lubricate the cannula with a drop of product;
- Introduce the cannula into the rectum and press the micro-enema;
- At the end of the application extract the cannula holding down the micro-enema to prevent the product from being reanalyzed;
- Throw the micro-enema after use.

Storage method - Store in the original packaging at room temperature, below 30° C and above 4° C, in a dry place and away from light. The expiry date refers to the product properly stored, in intact packaging.

Warnings - Do not exceed the recommended doses. Wash your hands well before and after use. In case of persistent constipation consult your doctor to rule out other diseases. Only for rectal use, do not ingest and avoid contact with eyes. For the use of the medical device during pregnancy and/or breastfeeding and in children under 3 years of age, consult your doctor. Do not use in case of hypersensitivity or allergy to one or more components of the product. In case of adverse reactions consult your doctor or pharmacist. Do not use if the micro-enema or the packaging is not intact. The product is mono-use: do not partially use as such use could result in contamination of the product. Do not use the product after the expiry date indicated on the package. Keep out of the reach of children.
