Key Ingredients & Their Functions

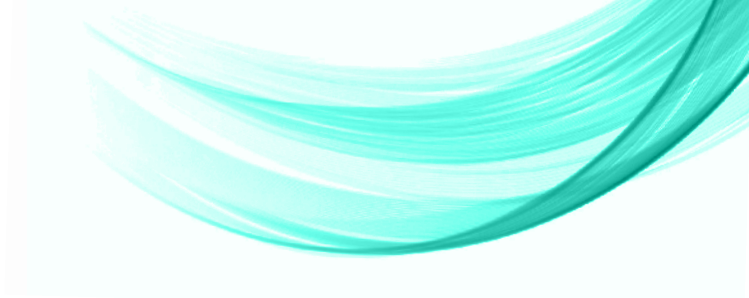

PLOXAMER

Surfactant that helps remove debris and protein deposits from the lens surface.

EDETATE DISODIUM (EDTA)

Chelating agent that binds trace metals, enhancing antimicrobial effectiveness.

**PHMB
(POLYHEXAMETHYLENE
BIGUANIDE)**

Broad spectrum disinfectant that eliminates harmful microorganisms such as Staphylococcus aureus, Pseudomonas aeruginosa, and Candida albicans.

**HPMC (HYDROXYPROPYL
METHYLCELLULOSE)**

Lubricant that coats the lens, reducing friction and improving comfort during wear.

**Key Ingredients &
Their Functions**

SODIUM HYALURONATE

Advanced moisturiser that locks in hydration, retains water, providing long lasting hydration and soothing dry eyes.

PROPYLENE GLYCOL

Humectant that prevents evaporation, helping lenses stay moist throughout the day.
